

AMENDMENT

In the Specification:

Applicant would like to bring to the Examiner's attention the replacement specification submitted with this response. Due to the number of minor changes to the specification, applicant is submitting a substitute specification, excluding claims, to replace the one originally submitted.

In the Claims:

Please replace the identified claims below with the following, respectively:

1. A topical cosmetic skin toner composition designed to be spread on the skin to hydrate and balance pH levels in said skin, said composition comprising:  
Proxeronine<sup>? nile?</sup> present in an amount between about 0.001-80 percent by weight;  
a quantity of Proxeronase to activate the release of Xeronine from said Proxeronine, said Proxeronase also capable of activating the release of Xeronine from any Proxeronine present in said skin, said Xeronine capable of enhancing and improving cellular vitality in said skin; and  
a cosmetically suitable carrier agent.
2. The topical cosmetic skin toner composition of claim 1, wherein said Proxeronase is in processed Morinda citrifolia present in an amount between about 10-80 percent by weight.

Claim 3 has been cancelled.

23. The topical cosmetic skin toner composition of claim 1, further comprising ingredients selected from the group consisting of SD alcohol 40-B, dipropylene glycol, witch hazel (Hamamelis Virfiniana) distillate, hops (Humulus lupulus) extract, rosemary (Rosmarinus Officinalis) extract, swertia japonica extract, tocopheryl acetate (vitamin E Acetate), panthenol, aloe barbadensis extract, pyridoxine HCL, farnesol, salicylic acid, menthol, glycerin, fragrance, butylene glycol, and sodium hydroxide.

24. The topical cosmetic skin toner composition of claim 1, further comprising ingredients selected from the group consisting of SD alcohol 40-B, witch hazel distillate, menthol, aloe barbadensis extract, glycerin, diglycerin, eucalyptus globulus oil, fragrance, butylene glycol, PG, Ext. Violet 2, and green 5.

25. A topical cosmetic skin toner composition comprising:  
*Morinda citrifolia* oil present in an amount between about 10-80 percent by weight; and  
a cosmetically suitable carrier agent, said composition designed to hydrate and balance  
pH levels in the skin.

26. A topical cosmetic balancing skin toner composition comprising:

*Morinda citrifolia* fruit juice present in an amount between about 10-80 percent by

weight; and

a cosmetically suitable carrier, said composition operating to balance pH levels in the skin.

Please add the following claims to the application for patent:

27. A topical cosmetic balancing skin toner composition comprising:

*Morinda citrifolia* oil present in an amount between about 10-80 percent by weight;

a balancing agent; and

a cosmetically suitable carrier, said composition operating to balance pH levels in the skin.

28. A topical cosmetic hydrating skin toner composition comprising:

*Morinda citrifolia* fruit juice present in an amount between about 10-80 percent by

weight;

a hydrating agent; and

a cosmetically suitable carrier, composition operating to hydrate the skin.

29. A topical cosmetic hydrating skin toner composition comprising:

*Morinda Citrifolia* oil present in an amount between about 10-80 percent by weight;

a hydrating agent; and

a cosmetically suitable carrier, composition operating to hydrate the skin.
